

# Karmic Map

## Cause and Effect

The **law of cause and effect** in this simple equation states that two molecules of Hydrogen combined with one molecule of oxygen equals two molecules of water. Also note that the product (effect) does not resemble the reactants (cause). Also, Newton's 3<sup>rd</sup> Law of Thermodynamics applies here. We just might not recognize the equal reaction, as we start with two gases and end up with water.

### Notes For Reducing Negative Karma:

**Atonement** – Confess & give genuinely, spiritually.

**Cause & Effect** – Where ever you see an effect, there is a cause somewhere. Nothing just happens. This applies to everything in nature.

**Dharma** – Transcendental duty, you must go for your purpose

**Duality** – Reduce negative discourse and judgement.

**Newtons 3<sup>rd</sup> Law** – For every action, there is an equal (in size) and opposite (in direction) reaction.

**Principle-based** – Follow the principles.

**Purification** – Purify spirit, mind, body, thoughts, emotions, actions
